## Purpose of the Public Scoping Meeting

Public involvement is a vital part of the environmental review process. The purpose of having a public meeting at this early stage of the project is to:

1. Initiate your early involvement
2. Provide project history and background
3. Explain the environmental review process
4. Present the project timeline
5. Invite review and comment on two draft documents: Need and Purpose Statement; Agency Coordination and Public Involvement Plan
6. Gather information about the project area
7. Discuss project with you and answer questions
8. Request comments on the project
9. Encourage your continued involvement
